GoSAT Africa

GoSAT Africa is a satellite internet service provider operating across Francophone Africa, deploying communications networks and facilitating high-speed data exchange for residential, family, and professional customers. The company operates under the Afrikanet group (Afrikanet Oxford Consulate), which has over 20 years of experience in satellite communications technology. The company provides satellite internet access powered by Eutelsat's Konnect satellite network, with direct operations in Cameroon, Ivory Coast, and Equatorial Guinea, and partner-network coverage in Chad, Gabon, and broader French-speaking Africa. GoSAT packages range from small residential bundles (10 GB at 5 Mbps) to professional plans up to 500 GB at 20 Mbps download. GoSAT's hardware offering — the GoSat Box — includes a complete satellite connection kit (antenna, modem, iLNB, cables, WiFi) with professional installation completed within 24 hours. Customer support is available 24/7. The company also offers add-on data packages and cybersecurity software for subscribers.

This profile is generated from the live NewSpace Market catalogue. Specifications are as published by the manufacturer; every product links to a page where a request for quotation reaches the company directly.

SERVICES
