Centum Electronics

Indian defense and space electronics company founded 1963 in Bengaluru, supplying hybrid microelectronics, power systems, and satellite subsystem assemblies to ISRO and defense programs.

This profile is generated from the live NewSpace Market catalogue. Specifications are as published by the manufacturer; every product links to a page where a request for quotation reaches the company directly.

SERVICES

Services

Design, manufacturing, and turn-key build specification services Centum offers comprehensive services covering design, manufacturing, and turn-key build specifications, providing end-to-end solutions for customer projects.	Engineering Services Centum offers engineering services with over 630 design engineers specializing in various electronic and mechanical domains to realize customized products.
Manufacturing Services Centum offers a wide range of manufacturing solutions for high-mix, high-complexity products, from PCB assemblies to full system integration.	Product lifecycle management services Centum offers services to manage products throughout their entire lifecycle, ensuring sustained performance and support.

PRODUCTS

Product catalogue

CENTUM ELECTRONICS

Centum Space-Grade Electronics

Indian electronics manufacturer producing space-qualified printed circuit boards, power modules, and avionics for satellite and defense applications.

Products	Space-grade PCBs, power modules, avionics
Customers	ISRO, commercial satellite manufacturers

price on request

CENTUM ELECTRONICS

Defence and Space Electronics Systems

Centum Electronics' electronic subsystems for Indian space and defence programs — including PCBs, power electronics, and test equipment for ISRO satellite and launch vehicle missio

Products	PCDUs, DC-DC converters, battery management, RF assemblies, PCBAs
Customers	ISRO, HAL (Tier-1 supplier), Indian defence programs
Certifications	AS9100D, ISO 9001:2015, NADCAP
European Presence	Centum Adetel Group, France
HQ	Bengaluru, India (BSE/NSE listed)

price on request
