Impulso.Space

Impulso.Space provides end-to-end launch and logistics services for satellite missions, supporting customers from initial planning to final deployment in orbit. The company offers launch capacity, logistics, infrastructure, and on-site operations, aiming to simplify the complex phases of a mission. They manage everything between a client's facility and orbit, including shipping, storage, and pre-launch activities. Impulso.Space has supported 17 missions, delivering 18 minisatellites, 1 microsatellite, and 20 CubeSats to orbit with a 100% success rate. Their experience includes rideshare and piggyback launches, notably multiple SpaceX Transporter missions. The company was founded in Italy in 2019, specifically in Padova. They have facilities and active operations in both Europe and the United States, with a dedicated facility near Cape Canaveral, Florida, for satellite processing and launch preparation. Their customers are those requiring satellite launch and logistics support.

This profile is generated from the live NewSpace Market catalogue. Specifications are as published by the manufacturer; every product links to a page where a request for quotation reaches the company directly.

SERVICES

Services

Launch Capacity Assessment and Support

Impulso helps customers find the best launch solution by assessing global operators, designing optimal solutions, and providing technical and operational support throughout the mission.

Payload Delivery to Launch Site

Impulso delivers fully prepped and fueled payloads to the launch site, ready for integration onto the launch vehicle.

Pre-Launch Activities Support

Impulso's facility supports all pre-launch activities, offering more time and space than a typical launch site PPF, and can also be used for launches outside the Space Coast.

Satellite Preparation Facility

Impulso provides a dedicated facility near Cape Canaveral for pre-launch satellite preparation, testing, and fueling, offering more time and space than standard launch site facilities.

Shipping and Storage

Impulso offers shipping and storage services, enabling their facility to support launches beyond the Space Coast.
