PRODUCTS

newspacemarket.com/companies/laco-technologies/

as of 27 August 2026

A large, faint, stylized circular graphic is positioned in the lower right quadrant of the page. It features a central circle surrounded by two concentric arcs, resembling a stylized eye or a target.

LACO Technologies

LACO Technologies manufactures vacuum and leak testing solutions, including thermal vacuum systems, production leak test systems, and helium leak detectors. They also produce various vacuum chambers, vacuum ovens, and vacuum systems.

This profile is generated from the live NewSpace Market catalogue. Specifications are as published by the manufacturer; every product links to a page where a request for quotation reaches the company directly.

PRODUCTS

Product catalogue

LACO TECHNOLOGIES
1015SD Single Stage Rotary Vane Vacuum Pump

The 1015SD is a compact, high-performance single stage rotary vane vacuum pump designed for reliability across a wide range of scientific, industrial, and instrumentation applicati

\$3 750

LACO TECHNOLOGIES
12" x 18" Tabletop Package Testing System

This tabletop system provides convenience and simplicity for package integrity testing, meeting ASTM standards with a large 12" DIA x 18" H full-visibility acrylic test chamber.

Voltage	110 V
Voltage	220 V

\$4 315

LACO TECHNOLOGIES

Air Open Style Leak Standard Calibration

LACO Technologies offers calibration services for Air Open Style Leak Standards, essential for maintaining accuracy in leak detection systems.

price on request

LACO TECHNOLOGIES

Alternate Gas Open Style Vacuum Leak Standard Calibration

LACO Technologies offers calibration services for open-style vacuum leak standards using alternate gases, ensuring precise and reliable leak detection for various industrial applic

SKU	LSLC0-0P-ALT
Calibration Type	Single point calibration, +/- 1.0 Mantissa, alternate gas fill included
Calibration Type	Single point calibration, +/- 10% (Capillary only), alternate gas fill included
Calibration Type	Primary rate-of-rise method (10 ⁻⁶ to 10 ⁻⁹ only), with adjustment
Additional Cal Points	Standard Calibration (1 point total)
Leak Standard Calibration Gas	Helium (1)
Leak Standard Calibration Gas	Air (2)

price on request

LACO TECHNOLOGIES

Alternate Gas Reservoir Vacuum Leak Standard Calibration

LACO Technologies offers calibration services for alternate gas reservoir vacuum leak standards, ensuring precise and reliable leak detection for various industrial applications.

price on request

LACO TECHNOLOGIES

ATLAS Leak Test Process Controller – Charge Only, Standard Pressure

The ATLAS Leak Test Process Controller is designed for automated helium bombing charge control or automated pre-filling of parts before leak testing, supporting pressures up to 140

SKU	ATC-2MDXHX-1
Fill pressure	to 140 psig
Voltage	120 VAC
Voltage	208-240 VAC

\$16 718

LACO TECHNOLOGIES

Capacitance Diaphragm Vacuum Gauge Calibration (0.1 to 1000 Torr)

LACO Technologies offers calibration services for Capacitance Diaphragm Vacuum Gauges, ensuring accuracy for critical vacuum measurements in various industries.

\$405

LACO TECHNOLOGIES

Combo Vacuum Gauge Calibration (10^{-7} to 760 Torr)

LACO Technologies offers calibration services for combo vacuum gauges, covering a wide range from 10^{-7} to 760 Torr.

\$810

LACO TECHNOLOGIES

Helium Concentration Tester

The LHCT03D Helium Concentration Tester verifies helium gas content in production parts, delivering fast, accurate concentration readings for quality control and process verification.

Measures helium concentration from 1% to 100%

price on request

LACO TECHNOLOGIES

Helium Concentration Tester Sniffer Probe

The LSP-HCT-5 Sniffer Probe is the standard sample probe used with LACO's Helium Concentration Tester, designed for ease of use and reliable performance in production and R&D.

SKU	LSP-HCT-5
Flow Rate	120 sccm calibrated
Hose Length	5 ft
Compatibility	LACO's Helium Concentration Tester (LHCT03 series)

\$445

LACO TECHNOLOGIES

Helium Open Style Vacuum Leak Standard Calibration

LACO Technologies offers calibration services for Helium Open Style Vacuum Leak Standards, ensuring accuracy and reliability for leak detection applications.

price on request

LACO TECHNOLOGIES

Helium Reservoir Vacuum Leak Standard Calibration

LACO Technologies offers Helium Reservoir Vacuum Leak Standard Calibration services, providing precise calibration for reservoir leak standards used in various vacuum leak detection applications.

price on request

LACO TECHNOLOGIES

High Vacuum Gauge Calibration (10^{-7} to 10^{-3} Torr)

LACO Technologies offers high vacuum gauge calibration services for gauges operating in the range of 10^{-7} to 10^{-3} Torr, ensuring accuracy and reliability for critical space industr

price on request

LACO TECHNOLOGIES

Membrane Vacuum Pump MVP-030 24 VDC

The MVP-030 is a compact, oil-free diaphragm vacuum pump designed for quiet and efficient operation, ideal for clean applications and integration into intelligent vacuum systems.

\$3 886

LACO TECHNOLOGIES

Pirani Vacuum Sensor

This Pirani Vacuum Sensor is designed for use with the TITAN VERSA or Pfeiffer 3G helium leak detectors, providing reliable pressure readings during vacuum testing.

\$560

LACO TECHNOLOGIES

Sniffer Alternate Gas Open Style Leak Standard Calibration

LACO Technologies offers calibration services for Sniffer Alternate Gas Open Style Leak Standards, ensuring precise and reliable leak detection for various industrial applications.

price on request

LACO TECHNOLOGIES

Sniffer Alternate Gas Reservoir Leak Standard Calibration

LACO Technologies offers calibration services for Sniffer Alternate Gas Reservoir Leak Standards, ensuring precise and reliable leak detection for various applications.

price on request

LACO TECHNOLOGIES

Sniffer Helium Open Style Leak Standard Calibration

LACO Technologies offers calibration services for Sniffer Helium Open Style Leak Standards, ensuring accuracy and reliability for leak detection applications.

price on request

LACO TECHNOLOGIES

Sniffer Helium Reservoir Leak Standard Calibration

LACO Technologies offers calibration services for Sniffer Helium Reservoir Leak Standards, ensuring accuracy and reliability for leak detection applications.

price on request

LACO TECHNOLOGIES

TITAN VERSA Internal Calibrated Leak Standard

A stainless steel, refillable reference leak used for calibrating helium leak detectors, engineered for compatibility with the TITAN VERSA and Pfeiffer 3G platforms.

\$852

LACO TECHNOLOGIES

TITAN VERSA™ Helium Sniffer Probe

LACO's A series Helium Sniffer Probe features a 60 sccm calibrated capillary tube sniffer probe for accurate and reliable sniff leak testing.

price on request

LACO TECHNOLOGIES

TITANTEST™ Helium Sniffer Probe

LACO's N series Helium Sniffer Probe features a 30 sccm calibrated capillary tube sniffer probe for accurate and reliable sniff leak testing.

price on request

LACO TECHNOLOGIES

UN-100V Dry Piston Vacuum Pump

LACO's UN-100V Dry Piston Vacuum Pump features an oil- and water-free design ideal for non-corrosive applications, offering compact size and lightweight for light to moderate duty.

\$495
