LAUNCH42

LAUNCH42 is a Netherlands-based company specializing in satellite separation and deployment systems for CubeSat and SmallSat missions. The company designs and manufactures next-generation deployers that simplify satellite integration and streamline the launch process for small satellite operators. LAUNCH42's systems are engineered for reliability and ease of integration, offering compact solutions that can accommodate a range of satellite sizes and configurations. Their products reduce the complexity and cost of getting satellites from factory to orbit, making space more accessible for research institutions, startups, and commercial operators. Operating in the heart of the European space ecosystem, LAUNCH42 serves both domestic and international customers seeking qualified, cost-effective separation mechanisms for rideshare and dedicated small satellite missions.

This profile is generated from the live NewSpace Market catalogue. Specifications are as published by the manufacturer; every product links to a page where a request for quotation reaches the company directly.

SERVICES

Services

Customer Support & Mission Management

Launch42 manages the entire launch interface, including documentation, schedules, reviews, and dedicated support from start to deployment.

Launch Integration & Deployment

Launch42 oversees final assembly and verification, cleanroom integration, and on-site support at the launch pad to ensure secure installation and successful deployment.

Mission & Launch Planning

Launch42 assists with mission concept, interface solution selection, and matching with suitable launch providers and schedules.

Qualification, Testing & Logistics

Launch42 supports critical environmental and functional testing, including vibration, shock, and thermal vacuum, and manages shipping, customs, and logistics.

Satellites Launched (Founder's Launch History)	400+

price on request

LAUNCH42

Tpod L CubeSat Test Fixture

Fully assembled CubeSat test fixture (TPOD-L) from Launch42, supporting 12U/16U CubeSats for integration and pre-launch test campaigns.

Size	TPOD - L
Supported CubeSat Size	12U / 16U
Lead time	4 weeks
Price	€15,800

€15 800

LAUNCH42

Tpod M CubeSat Test Fixture

Fully assembled CubeSat test fixture (TPOD-M) from Launch42, supporting 6U/8U CubeSats for integration and pre-launch test campaigns.

Size	TPOD - M
Supported CubeSat Size	6U / 8U
Lead time	4 weeks
Price	€11,500

€11 500
