

Characteristics

APPLICATIONS

- Real-Time Precise Onboard Orbit Determination (P2OD)
- Satellite accurate Positioning & Tracking
- Onboard time synchronization
- Spacecraft formation flying

BENEFITS & KEY FEATURES

- Multi-constellation (GPS, GALILEO, BeiDou & GLONASS)
- Onboard Orbital Navigator
- In flight firmware uploading
- GALILEO Autonomous

QUALITY & RELIABILITY

- High reliable New Space design
- Radiation tested & hardened
- 2 - 5 year life-time LEO missions
- ITAR Free
